Projects

Personal Portfolio Website ⌯

Developed a responsive portfolio website to showcase projects, skills, and experience using HTML, CSS, and JavaScript. The site includes sections for personal bio, project highlights, and contact information, and integrates links to social media profiles (LinkedIn, GitHub).

Calculator ⌯

A basic calculator using HTML, CSS, and JavaScript that performs standard arithmetic operations like addition, subtraction, multiplication, and division. Implemented a responsive user interface and real-time input validation for error handling. The project demonstrates an understanding of DOM manipulation, event handling, and responsive web design.
